

India's First Structured Signage Network

India's signage industry is worth ₹10,000+ crore, yet remains highly fragmented. Most business owners struggle with inconsistent leads, pricing confusion, staff dependency, and operational chaos. Ainan Signage Network is built to solve this.

₹10,000+ Cr Industry | Mostly Unorganized

The Industry Problem Nobody Solved

Behind every glowing signboard, there is often hidden chaos. Owners handle sales, quotations, production, installation, payments, and customer complaints all at once. In many businesses, growth doesn't stop because of lack of demand, it stops because the entire system depends on one person.

50+ Verified Leads Every Month

50+

Verified
Leads / Month

0%

Commission
on Deal

100%

Client
Ownership

A centralized lead generation system designed to deliver serious business inquiries, so franchisees can focus on quotation, conversion, and execution instead of chasing random leads.

* 50+ verified leads indicate screened inquiries. Conversion depends on pricing, follow-up, competition, and execution.

Why Most Signage Businesses Stop Growing

Most signage businesses don't struggle because of lack of demand. They struggle because growth depends on people, not systems. When pricing, sales, production, and execution rely on individuals, scaling becomes difficult.

Zero-Commission Model

Unlike traditional franchise models, Ainan Signage Network takes zero commission on the business you close. Every rupee you earn from your client stays with you, allowing growth without revenue sharing pressure.

0% Commission on Sales

Lifetime Client Ownership

Every client you convert remains completely yours for life. Unlike traditional franchise models where customer ownership often stays with the parent brand, Ainan Signage Network ensures full ownership remains with the franchisee. Repeat orders, referrals, service revenue, and long-term business value continue to strengthen your local business. This means you are not just closing one-time deals, you are building a valuable and sustainable business asset for the future.

Your Client = Your Asset

AuroxAI

Your 24×7 AI Business Assistant

AuroxAI acts as your intelligent business assistant, available 24×7 to support daily operations. From instant quotations and product recommendations to client handling and decision support, it helps reduce dependency on highly skilled staff while improving speed, consistency, and execution quality.

The Vision Behind **The System**

Mr. Ainan
(Founder)

After years of real ground-level experience in signage, Mr. Ainan realized the industry's biggest challenge was never just sales, it was the lack of systems. His vision is to transform fragmented local businesses into scalable, system-driven enterprises through technology, structure, and network power.

Miss. Preeti Sharma
(Co-Founder)

Miss Preeti Sharma brings structure, operational discipline, and long-term execution focus to the network. Her contribution ensures that vision is converted into practical systems, smoother workflows, and a stronger foundation for sustainable franchise growth across India.
